Re: Statistics (response to post by **wleite**) | Feedback: (+1/-0) | [+] [-] | Reply — Wed, Nov 11, 2020 at 4:03 AM BDT

Thanks **wleite**.
So my failures costed me 2 places again =(

Re: Statistics (response to post by **sullyper**) | Feedback: (+1/-0) | [+] [-] | Reply — Wed, Nov 11, 2020 at 4:09 AM BDT

But you went up one place from provisional, so that's nice.

I'm always impressed how **wleite** posts these statistics so quickly. Personally, I can't even see anywhere the final results, yet: the contest page still shows only the provisional results for me (could it be a caching issue on my side?) and the contest's page on software.topcoder.com also doesn't show any scores (other than mine). Which makes seeing these stats all the more impressive :)

mugurelionut, statistics are not that quick, results that are too slow :-)
In the new platform results are loaded in a large JSON file (which is part of the leaderboard page) as soon as system tests are completed for a given coder.
I guess there is an extra manual step to "publish" the final results, but individual test results are already there for a while when they are finally published (not sure when tests finished for this contest, as I only checked a couple of hours ago).
I usually wait for the final results to publish the statistics, as it is always possible that some solutions need to be reevaluated.

EDIT: I decided not to wait this time as we are too close to TCO20 final and I am trying to minimize the time I spent on the computer until the competition :-)

He is impressive indeed ;)
The results are available while the evaluation is running, there is some API to query the score on each seed, I don't know it, but I think I saw that at some points. So it's technically not the official results if they decide to rerun some submissions, but it's most likely going to be the final results once they decide to update the leaderboard page.

So impressive... He also shame me by answering few seconds before me =)

Re: Statistics (response to post by **mugurelionut**) | Feedback: (+0/-0) | **[+]** **[-]** | **Reply**   Wed, Nov 11, 2020 at 6:31 AM BDT

I think you can retrieve based on some old links from tc (feed and stats). Figure out coder id, competition id, and you can get it. I had it once figured out. But I lost the links. And now a lot of old tc pages are deprecated.

Re: Statistics (response to post by **vlad_D**) | Feedback: (+1/-0) | **[+]** **[-]** | **Reply**   Wed, Nov 11, 2020 at 11:28 PM BDT

I guess we now only need to wait for the final results of Stage 1 before starting to compute TCO points for Stage 2. From what I can tell, the only meaningful change that can occur is for **vlad_D** to place among the top 2 in the Circle Finder Marathon Challenge (provisionally in 1st place), which would push him among the top 3 in Stage 1, pushing **nika** in 4th place from Stage 1. But it seems that at least **wleite** and **Daiver19** are guaranteed to have qualified to the TCO'21 Finals from Stage 1.
